My self-summary

Hi and welcome to my profile. I'm Bridget, a born and raised country girl from Smalltown, Missouri, USA. I'm not kidding with that either. I grew up on 6.5 acres of land complete with woods, a creek and a menagerie of animals. I had 6 dogs, 2 birds, a bunch of ducks, 3 horses and as a result, I'm a huge animal lover. It was lots of fun. No, I'm not Dr. Doolittle. I talk to them but they don't talk back in a way I can understand. I'm practicing though! I'm also pretty much a total geek and love art, math, and science.

What I'm doing with my life

I'm a student at CMU (Colorado Mesa University) studying computer aided design. I plan on starting the mechanical engineering track within the next two years as well. I'm looking for a part-time gig to supplement my studies and hobbies as well.

I'm really good at

- Cooking
- Walking
- Working on computers
- Painting
- Drawing
- And much much more.

I *love* reading. Fantasy, American revolutionary period pieces, and Victorian England period pieces are among my favorites. No Jane Eyre though. That sucks.

You might like

I like movies with explosions, blood, and guts. Totally action movies, not horror. A couple of my favorite TV shows are Supernatural and Jane the Virgin.

I love all kinds of music. Rock, pop, hip hop, rap, country (especially country), meatal, dubstep...it can all be found on my playlists.

I love all kinds of food and am something of a foodie. Sushi is definitely my favorite. I also love Indian curry, Thai food, pizza, and pretty much anything else.

I also love to geek out with D and D and computer games. If you can hold your own in Assassin's Creed (Xbox, of course), shoot me a message.

The six things I could never do without

1. family – even when they suck, they rock
2. books – to escape reality (it gets boring here).
3. showers – cold showers on hot days are heaven.
4. music – it's so easy to get lost in the rhythm and beat and relax.
5. traveling – I love seeing new places and experiencing different cultures.
6. learning – I love expanding my horizons in every way.

I spend a lot of time thinking about

Life in general, what I want to do with my future, how I see myself, philosophy, science, physics, energy, how to level up in PokémonGo, you know, the normal things.

Also, where the hell they put the body farm. Field trip, anyone?

On a typical Friday night I am

Well, any night, I can be "talked into" going to karaoke or playing pool. They rock. I also like taking long walks at night (it's the dessert and it's hot, no sun beating down on me is a win), hanging out with friends, watching TV, being a super fangirl and chilling with my dog, Keva.

Some days you will find me LARPing, going on SCA events (keep scrolling if you don't like it, go to <http://www.draca-mor.org/> to find out more if it's your thing and then message me).

You should message me if

You're not a serial killer.

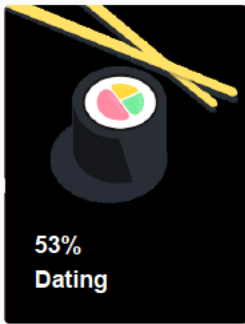

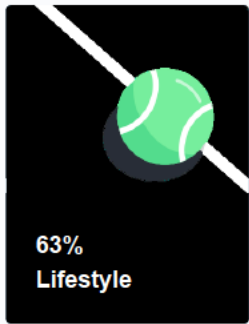

You enjoy long intellectual conversations (I don't give a rat's ass about the Kardashians).

You have good teeth. Seriously, don't come at me with a blackened snaggletooth. It's not cute.

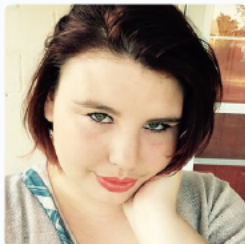

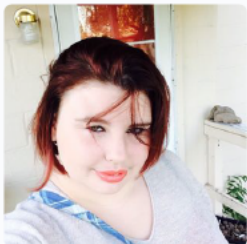

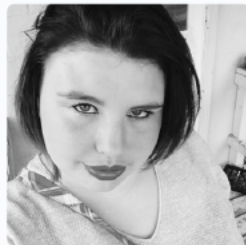

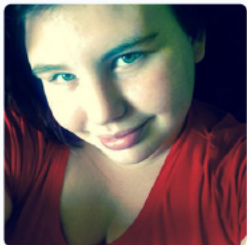

You are a chill person looking to hang with another chill person with a dash of crazy and can add your own to the mix.

The two of us
